The Creative Curriculum

We are currently in the exercise study. The kids really seem to be enjoying it! As we study exercise we will learn concepts and skills in physical development, literacy, math, science, social studies, the arts, and technology. We'll also develop thinking skills we observe, investigate, ask questions, solve problems, make predictions, and test our ideas. We are inviting you to bring in any exercise equipment, objects, and/or pictures to share with the class. Thank you for your continued support in your child's education!
