

# KID'S HAVEN

CHILD CARE & PRESCHOOL

## Parent News

NEWSLETTER | APRIL 2021

### -NEWS AT THE HAVEN-

Our study of trees begins and we will be observing and comparing trees to learn about what lives in them, what they're made from, and who cares for them. We will use literacy, math, the arts, and technology to explore trees in depth. If you are able to take a "tree walk" with your child, we would appreciate your help in collecting tree parts to investigate. At home, you can help your child explore and appreciate nature by learning about trees. Invite your child to talk about trees. Share stories about your favorite childhood memories involving trees and games you might have played around them. Wonder aloud with your child to encourage his/her thinking about trees. Collect parts of trees, and encourage your child to sort them. Your child might also enjoy making a collage by arranging and gluing tree items on paper.
