

KID'S HAVEN

CHILD CARE & PRESCHOOL

Parent News NEWSLETTER | MAY 2025

-NEWS AT THE HAVEN-

This month, we're digging into the exciting world of gardening! The children will explore how plants grow, what they need to stay healthy, and the important role nature plays in our environment.

Here are some ideas on how you can help at home.

- Start a small garden together (even just planting a flower and watching it grow)
- Take a walk and look for signs of spring: flowers, birds, insects and the roles they play in nature
- Read a garden book together or visit a local garden or park

Also, please let us know if someone in your family has a job or hobby related to gardens and would like to share his or her expertise with the class. Any additional resources and help is always appreciated.
