-NEWS AT THE HAVEN-

Welcome to Kid's Haven's 2025-2026 school year. We are kicking off with the topic of **Family Partnership: Beginning of the Year**. As a new school year begins, one of the most important foundations we can lay is a strong, respectful partnership between families and educators. Early childhood is a time of incredible growth and change—not only for children but for the adults who support them. When families and childcare providers work together from the very start, children thrive emotionally, socially, and academically. Children feel most secure and confident when they see that the important adults in their lives are working as a team. A strong partnership between home and childcare helps create consistency in expectations, values, and routines. This collaboration fosters a sense of trust and stability, which is essential for young children who are navigating new environments, building relationships, and developing independence. Starting the year with a focus on family partnership lays the groundwork for a successful, connected, and joyful learning journey. When caregivers and families collaborate, children benefit in every way—emotionally, socially, and academically. Let's begin this year together, as partners, advocates, and champions for every child in our care.

We hope you have a great start to the beginning of the year!!!
